### **San Diego County Library November Events – All Branches** *Library Staff Join the Public in Giving Thanks for Public Libraries*

During the Thanksgiving season, Americans give thanks for their blessings, including the bedrock of freedoms established by our country's founding fathers. During this season, the staff of the San Diego County Library invites the public to pause in gratitude that our land of plenty has been dotted with plenty of free public libraries, both large and small.

Along with public schools, public libraries have played a huge role in making America a unique and great nation. The free public library has aptly been called "the people's university." Anyone with motivation, from any walk of life, or at any stage of life, can sow the seeds of knowledge and harvest success.

The staff of the County Library is proud to serve the public at the 32 community library branches and two mobile libraries, as they carry on America's legacy of protecting the freedom to read and providing the information the public wants. The staff wishes the public an inspiring Thanksgiving and invites them visit the library often and take advantage of the County Library's free services and programs.

The following is a listing of November programs at all San Diego County Library branches.
